SKILLS

- ❖ HTML, CSS, JavaScript, Bootstrap, tailwindcss
- ❖ Git, GitHub, MySQL, PHP

EDUCATION

- ❖ Computer Science | Virtual University

(November 2024)

ACADEMIC PROJECTS

❖ Spotify Clone

- Designed and developed a replica of Spotify's (Explore) page using HTML, CSS, and JavaScript.
- Implemented responsive design principles to ensure compatibility across various devices and screen sizes.
- Received positive feedback from peers and stakeholders for the accuracy and usability of the Spotify page clone.

❖ Personal Portfolio

- Developed a personal portfolio website showcasing skills, projects, and professional experience.
- Utilized HTML, CSS, and JavaScript to design and implement the website.
- Integrated a contact form to facilitate communication with potential clients or employers.
- Included a project gallery highlighting notable projects with descriptions and technologies used.
- Continuously updated and maintained the portfolio to reflect current skills and accomplishments.

❖ Web Page Using Tailwindcss

- Created a single, responsive webpage with Tailwind CSS for styling and layout and HTML5 for semantic structure.
- Incorporated contemporary design ideas to produce an interface that is both aesthetically beautiful and easy to use.
- Tailwind CSS utility classes were used to effectively style elements, increasing the speed and maintainability of development.

❖ Other Mini Projects Using HTML, CSS

- Proficient in HTML and CSS for creating numerous mini projects, showcasing diverse skills and creativity.
- Developed a variety of web-based projects demonstrating fluency in HTML structure and CSS styling.
- Demonstrated ability to design responsive and visually appealing user interfaces using HTML and CSS.
- Created mini projects ranging from static web pages to interactive prototypes, highlighting versatility and adaptability.
- Utilized CSS frameworks such as Bootstrap to enhance project aesthetics and streamline development process.

ACHIEVEMENTS

❖ Responsive Web Design (FreeCodeCamp)

(August 2024)

- Completed a comprehensive curriculum covering HTML, CSS, JavaScript, and other key technologies essential for modern web development approximately 300 hours of work.
